## FLEET ADMIRAL PELLAEON ILLEGALLY DETAINED!

**FLEET ADMIRAL PELLAEON, LEADER OF THE EMPEROR'S HAMMER TIE CORPS, HAS BEEN ILLEGALLY DETAINED BY AN ORGANISATION CALLING ITSELF**

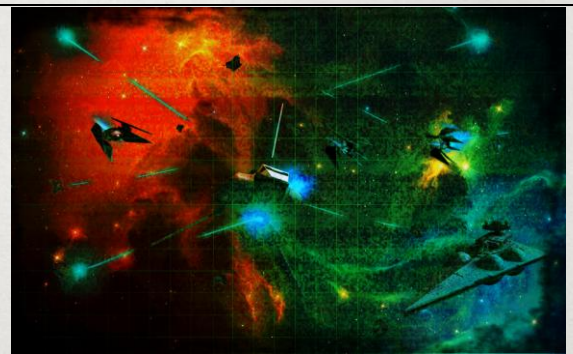

Despite the valiant efforts of the brave pilots of the TIC Corps escorting the Fleet Admiral, the devious and unprovoked ambush of the Emperor's Hammer transport by the forces of the co-called 'First Order' has resulted in the illegal and unjustifiable detainment of TIE CORPS personnel.

Early reports indicate that an Interdictor class Cruiser was deployed within Emperor's Hammer space, which was able to force the Admiral and his escort out of hyperspace. This alone would have been a sufficiently aggressive act to require the fullest military response.

Admiral Pete Mitchell, Strategic Operations Officer of the TIE CORPS, has released the following statement;

*"The heinous act of then capturing the TIE CORPS Commander, through such underhanded and dishonourable tactics, demands that all loyal members of the Emperor's Hammer prepare to respond in the strongest possible terms."*

At the time of publication, TIE CORPS forces are already on high alert and the full might of the Emperor's Hammer is being readied to bring about the speedy return of Admiral

*Last known pic-cap of Admiral Pellaeon's Imperial Landing Craft – submitted by Imperial Intelligence.*

Pellaeon, and ensure the wider security of our territories.

Imperial Intelligence has asked that all vessels not displaying proper Emperor's Hammer ID codes are reported to your local TIE CORPS representative immediately. The Pilots of the TIE CORPS will then take all due care to ensure these vessels are safely, and in full compliance with Imperial law, dealt with.

In addition, a substantial reward has been offered to any loyal member of the Emperor's Hammer who can provide viable intelligence that can aid in the safe and swift return of Admiral Pellaeon to his rightful place leading the TIE Corps. As with all such information, contact your local Imperial Intelligence centre, who will process your information appropriately.
